

BULK FRUIT FILLER

DESCRIPTION

The **bulk fruit filler** is designed to **automatically fill boxes with fruits of different shapes and sizes**, optimizing the workflow on packing lines. Its system combines **filling hopper** and **box conveyor**, allowing fast, uniform and safe filling, minimizing damage to the fruit during handling.

Its robust construction and easy to integrate into the line ensures continuous, reliable and efficient operation, adapting to different box formats and production capacities.

FEATURES

Installed Power:	1.1 kW
Voltage:	380/220V III [220V Single phase on demand]
Production:	No production limits
Other features:	Filling of boxes of different sizes
Main Function:	Automatic bulk box filling
Filling System:	Receiving hopper + box conveyor
Application:	Citrus fruits and other fruits of different sizes
Construction:	Sturdy metal frame and easy cleaning
Online Integration:	Compatible with conveyor and packaging systems
Main Advantage:	Even, fast and safe filling, minimizing damage to the fruit
